SUMMARY

Aspiring full-stack web developer currently learning and developing proficiency in modern web technologies. Pursuing a Bachelor's degree in Computer Science in Bengaluru, with a strong foundation in programming and a keen interest in building scalable and efficient applications. Actively enhancing my skills in frontend and backend development, problem-solving, and performance optimization, with a commitment to continuous learning and growth

WORK EXPERIENCE

Rustic Wisdom — Full Stack Development Intern

April 2025 – July 2025

- Contributing to the development and enhancement of the company's web platform, focusing on both frontend and backend functionalities.
- Building dynamic user-facing features and interactive components using **JavaScript**.
- Developing and maintaining backend logic using **PHP** and integrating APIs.
- Participating in code reviews, debugging and performance tuning to improve application reliability and efficiency.

PROJECTS

WeNeed: Disaster Relief & SOS System

[GitHub](#)

Tech Stack: React.js, Next.js, Firebase, Google Maps API, Tailwind CSS, Node.js

Web platform connecting individuals in need with volunteers or organizations. Includes real-time request submission, fulfillment tracking, map-based request matching, and SOS alerts for disaster relief and community support.

IntervBot: AI Voice Interview Platform

[GitHub](#)

Tech Stack: Next.js, TypeScript, Tailwind CSS, Firebase (Authentication, Firestore), Google Gemini AI, Vapi Voice AI, Node.js

AI-driven platform for real-time voice interviews with adaptive question generation, live conversational interaction, and detailed post-interview feedback. Provides deep analysis across technical, behavioral, and situational aspects, replicating human-led assessment and ensuring personalized candidate evaluation.

EDUCATION
